QP2523/10

OneBlade for protective clean shave

Reduce cuts & redness caused by shave

Philips OneBlade - Unique design to reduce cuts & redness caused by shave, giving you clean shave while protecting your skin.

Protective clean shave

- 2-in-1 dual protection system
- Unique Easy Catch blade System
- Bi-directional Flex System

Easy to use

- Durable OneBlade
- Water resistant: Use wet & dry
- Long lasting battery

Highlights

2-in-1 dual protection system

2-in-1 mechanism: Skin guard with glide coating + rounded tips on all edges, offering gentle touch towards skin, avoiding cuts by accident, frees you from concerns of cuts.

Unique Easy Catch blade System

Unique Easy Catch blade system works like shovel blade, designed for horizontally catching hair. Therefore, you can easily shave off even flat lying hair that is more difficult, without the need for multiple passes. No concerns for skin from cuts and redness.

Bi-directional Flex System

With Bi-directional flex system, the shaver stays close to skin and can easily shave even tricky areas like chin and above-lips. No need to press hard against skin, reducing your concern of redness caused by overpressure.

Durable OneBlade

The blades are designed for lasting performance. For optimal performance, recommend to replace the blade every 9 months*. Replacement is easy and hassle free.

Wet & dry

OneBlade is water resistant, so it is easy to clean: just rinse it under the tap. You can shave wet or dry, with or without foam - whichever you prefer.

Long lasting battery

Rechargeable battery delivers 45 minutes of constant performance after an 8 hour charge.
