

HP 260 G2 Desktop Mini PC

Small size, big performance, affordable price

The fully functional HP 260 Desktop Mini PC delivers the benefit of space saving design that can grow with your business and is equipped with the essential tools you need at an affordable price.

HP recommends Windows 10 Pro for business

- Windows 10 Pro¹
- 6th Generation Intel® Core™ Processors²

Work confidently without the cost

- Get the affordably priced business ready desktop mini with the accessories³ and optional HP services³ you need plus power saving processors to help lower energy costs.

Small design, big versatility

- The industrial design of the compact desktop mini with flexible mounting options³ and optional accessories³ help support a versatile range of use cases from desktop to public computing to digital signage.

Powered to perform

- Accomplish tasks with 6th Gen Intel® processors² and Intel® HD Graphics³ with the option to scale up to Core™ i5² and up to 32GB of DDR4 memory³ if your workload demands it.

Ready to grow

- The system of accessories and expansion capabilities of the HP 260 Desktop Mini provide multiple options within one line of products to fit the needs of your diverse work environment.

Featuring

- Help secure the future of your business. PCs from HP make the most of Windows 10 Pro to protect you from today's security threats and maximize management and productivity features for business.
- Do your part to reduce energy use and costs with processors that help consume less than half the energy of those in other mini PCs.
- Take advantage of expandable and compatible HP mini accessories. Expand storage options, add legacy ports with expansion modules, help secure your device with security mounts, or take back your desk space with stands and work centers.
- Do more on dual displays with an HDMI port and full HD VGA port, plus use 6 USB ports to plug in all the peripherals you need.
- Help keep your investment safe and conveniently power up your desktop mini directly from the keyboard so you don't have to open enclosures or strain for the power button when it's out of reach.
- Choose a standard hard drive or upgrade to a speedy and reliable solid state drive.
- Easily secure your system in a safe place. The lightweight desktop mini is easy to carry and store.
- The embedded Trusted Platform Module (TPM) provides hardware-based encryption to help secure your data and deter attacks from viruses and malware.

HP 260 G2 Desktop Mini PC

Messaging Footnotes

¹ Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.microsoft.com>.

² Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.

³ Sold separately or as optional features.

Technical Specifications Footnotes

¹ Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.microsoft.com>.

² This system is preinstalled with Windows 7 Professional software and also comes with a license and media for Windows 10 Pro software. You may only use one version of the Windows software at a time. Switching between versions will require you to uninstall one version and install the other version. You must back up all data (files, photos, etc.) before uninstalling and installing operating systems to avoid loss of your data.

⁴ Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.

⁵ Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.

⁶ For storage drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 30 GB (for Windows 10) of system disk is reserved for the system recovery software.

⁷ Wireless cards are optional or add-on features and requires separately purchased wireless access point and internet service. Availability of public wireless access points limited.

⁸ HD content required to view HD images.

⁹ Optional or add-on features.

¹¹ HP Support Assistant requires Windows 7 or later edition or Linux and internet access.

¹² Based on US EPEAT® registration according to IEEE 1680.1-2018 EPEAT®. Status varies by country. Visit www.epeat.net for more information.

¹³ The following applies to HP systems with Intel Skylake or next-generation silicon chip-based system shipping with Windows 7, Windows 8, Windows 8.1 or Windows 10 Pro systems downgraded to Windows 7 Professional, Windows 8 Pro, or Windows 8.1. This version of Windows running with the processor or chipsets used in this system has limited support from Microsoft. For more information about Microsoft's support, please see Microsoft's Support Lifecycle FAQ at <https://support.microsoft.com/lifecycle>

¹⁴ Intel® Turbo Boost technology requires a PC with a processor with Intel Turbo Boost capability. Intel Turbo Boost performance varies depending on hardware, software and overall system configuration. See www.intel.com/technology/turboboost for more information.

¹⁵ NOTE: Your product does not support Windows 8 or Windows 7 in accordance with Microsoft's support policy, HP does not support the Windows 8 or Windows 7 operating system on products configured with Intel® and AMD 7th generation and forward processors or provide any Windows 8 or Windows 7 drivers on <http://www.support.hp.com>
