NanoTech precision blades are strengthened with nano particles and have extra strong and long-lasting sharp edges. They cut hair with the highest precision, delivering extremely close results at skin level.

Superb SkinComfort rings

Get a shave that glides extremely smoothly over your skin, with the Superb SkinComfort rings. The rings with metallic pigments have an anti-friction coating for superb gliding.

BeardAdapt Sensor

Shave off even a dense 7-day beard- effortlessly. The BeardAdapt Sensor checks the hair density 15 times per second and automatically adapts the shaver to your hair.

Excellent skin comfort system

Our excellent skin comfort system enables you to get a highly efficient shave, even on a longer (up to 7-day) beard. Its new wider, rounder openings catch more hair per pass, resulting in a difference you can feel: excellent skin comfort.

Personal comfort settings

Choose between 3 modes to customize your shave. Sensitive - for a gentle, thorough shave. Normal - for a thorough, everyday shave. Fast - for a quick shave that saves you time.

Multi-direction ContourDetect
