

NGS PREMIUM SPEAKER WILD TRAP3

DUAL CHANNEL-DJ EFFECTS-600W- 3 WOOFERS-DJ MIXER-BLUE TOOTH

NGS Wildtrap3 is a sound system with triple subwoofer, 600 W output power, and dual channel input to perform live mixes and DJ effects, making you the king or queen of the party. Features dual USB input, double auxiliary input, Bluetooth connection and FM radio, as well as audio output to connect another speaker and boost power. Also includes Super Bass function to increase bass.

The lighting system and sound power are ideal to get your party started.

Bluetooth

Thanks to its Bluetooth® connection you will play your favorite songs and playlists straight from selected smartphones or tablets easily.

FM Radio

Tune in to your favorite FM stations thanks to its built-in FM radio tuner

2 USB Ports

Plug in a USB stick and play all your digital files, Wild Trap3 supports MP3, WMA, WAV, and AAC formats.

2 Aux Input

Connect any external audio source through a 3.5 mm jack cable or double RCA.

LED Lights

Bring a feast-oriented environment with the built-in multi-colored LED speaker lights. With different speaker patterns syncing to the beat of your favorite tracks, you'll be able turn them off from the button located on the upper part of the speaker.

Choose the combination between RGB colours to your personal taste. You can select each of them one by one, mix 2 of them at your option or choose 3 simultaneously.

Effects and DJ functions

Fun is guaranteed, you can add Dj effects such as: Laser, Marvel, Pro, Bomb, Scratch, Reverb, Beat Box, Yeah, Bring it, Geyr and other prerecorded special effects to your favourite tracks with the desired intensity level due to its independent volumen control.

Thanks to its double USB and Aux inputs as well as its personalized volumen controls for each input, sound mixes can be done between both channels.

USB-AUX IN
BT-USB
BT-LINE IN
AUX IN-LINE IN

Furthermore, the song tempo can be controlled by the USB inputs, speeding up or slowing down the rythm of the music to achieve the best sound mixing between 2 tracks.

To achieve a more professional effect, a headset output has been added, therefore you will be able to listen to the channel you want regardless of the one playing from the speakers. This way, you will have better control over the tracks and mixes.

Materials

The box is made of wood, offering an excellent audio quality and a spectacular acoustics.

Design and Mobility

Its wheels make the handling easier, so you can transport it anywhere despite its large size.

Microphone Input

It includes a wired microphone input that can be used for various purposes: lecturing, singing karaoke, sports activities (aerobic, spinning, zumba... etc.)

Furthermore, it also contains volumen and Eco control to equalise the sound of the microphone.

Guitar Input

It is equipped with an input for connecting musical instruments

LED Screen

It's useful LED screen lets you easily manage your listening experience showing practical info such as: Mode, Radio frequency, Volume, etc.

Treble and Bass Remote Control

Treble and house-shaking Bass Control for easy high and low tone settings

Remote Control

Includes a remote control that allows easy and rapid control of the device.
