PHILIPS

Highlights

Energy class A+AA

Engineered to achieve full performance with an A+ rating for energy efficiency, A on hard floor cleaning performance and A on dust re-emission.

A-class on hard floors

This product achieves the highest cleaning performance class on hard floors. 100% of dust is picked up!

Powerful cyclonic action

Exclusive PowerCyclone 8 technology quickly accelerates air in the cyclonic chamber to separate out dust. The powerful swirling action maximizes airflow and performance for remarkable cleaning results.

TriActiveMax nozzle

TriActiveMax nozzle perfectly seals to the floor and performs 3 actions in one go to thoroughly clean your floors: 1) A specially designed sole plate gently opens the carpet and removes the dust from deep down. 2) Larger front opening pick up bigger particles. 3) Side brushes ensure perfect cleaning along the plinths.

TriActive Z hard floor nozzle

The new TriActive Z hard floor nozzle removes all dust and crumbs in one go. Unique Z-shaped design guides the dust and the bigger crumbs into the air channel without pushing them forward. Side air channels perfectly clean along the plinths. Now there is no more need to lift the nozzle to remove bigger crumbs and ensure an exceptional clean of your hard floors.

Ultra Clean Air HEPA 13 filter

The Ultra Clean Air HEPA 13 filter captures at least 99.95% of all dust, ensuring a clean & allergen-free environment.

NanoClean Technology

The new innovative technology is especially developed to prevent the usual dust cloud. The new innovative technology is especially developed to prevent the usual dust cloud. The dust settles at the bottom of the dust bucket rather than staying in the air. When the bucket is opened there is no usual dust cloud.

Extra Ergonomic Dust Bucket

The side of the bucket has a specially designed spout-like shape. This enables to empty the bucket in a controlled manner without spilling the dust.
