DES7010RCA/10

Highlights

An access alert

Be informed in advance of the arrival of your guests with the Philips WelcomeBell 300 AddMove motion detector. This will detect each time someone passes within a range of 3m and will alert you via the doorbell.

Low battery warning

Don't be afraid of your battery failing on your WelcomeBell 300 AddMove motion detector. It will notify you with a light alert.

A customisable solution

Distinguish between your transmitters by customising the doorbell melody. Configure a different doorbell melody for each WelcomeBell transmitter that will enable you to identify the entrance used.

An upgradeable platform

Expand your WelcomeBell installation with Philips accessories and chimes. A motion or opening detector, call button, chime and transmitter are compatible together.
