

# Micromario DI MET\_EN

90x127mm

NanoCloud technology evenly distributes invisible water vapour into your room. In dry conditions moisture from the humidifier will be absorbed by walls, furniture, and other items in your room. Ventilation of dry outside air will also increase the time it takes to reach the target humidity. To optimize humidification and purification performance, it's recommended to close doors and windows during use.

## Connectivity

We partner with Air Matters, one of the leading air quality apps. Download and install the apps

### Air Matters

Open the app and click '+' on, to connect your device. Please follow the steps in the app.

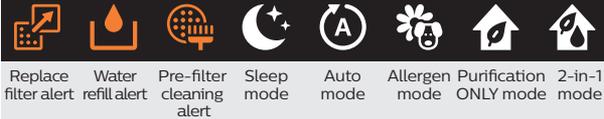

## Control

Hold for 3 seconds

Hold for 3 seconds: Display switch between PM2.5 / IAI / Current humidity level

## Display

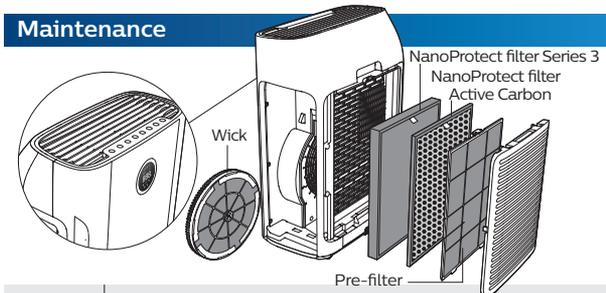

PM2.5 indicator    WiFi indicator    Indoor Allergen Index    3-digit display PM2.5 / IAI / Humidity level    Air quality ring

Allergen index from 1 to 12 where 1 indicates best air quality

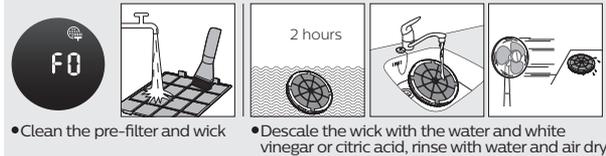

## Maintenance

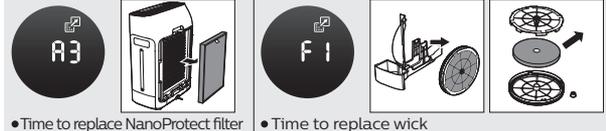

**EVERY WEEK** Rinse the water tank, the water tray and the NanoCloud rotray humidification wick.

### When display shows F0

### When display shows A3 / C7 / F1

**!** Press ( ) for 3 seconds to reset after cleaning or replacing accessory

The filter may produce smell after being used for a while because of the absorption of indoor air. Remove the filter and place it where it has direct sunlight and ventilation for several hours. Re-install and try using it again. If the odor remains, please replace the filter.
