Easy to experience

- Timer to wake up with the smell of fresh coffee
- Drip stop to pour a cup of coffee whenever you like
- Water level indication for easy filling
- Adjustable keep-warm time from 10 minutes to 2 hours

PHILIPS

Highlights

Integrated bean grinder

To have the delicious taste of freshly ground coffee, fresh coffee beans are grinded before brewing. This coffee maker has conical burr grinders to have the optimal grind size, which ensures the best taste.

Fresh bean duo-container

With the duo-container you can store two types of coffee beans. Select which type of bean you want to use for brewing. You can choose between the two types of coffee beans, or create your own blend, by selecting both.

Strength select

Adjust the intensity of your coffee from mild, medium or intense coffee.

Ground coffee brew

You can also use ground coffee instead of coffee beans. The grind-off function disables the grinder and you can simply fill ground coffee into the filter.

Aroma twister

This smart nozzle inside the jug circulates the inflowing coffee evenly through the jug for an optimal and consistent aroma, from the first to the last cup.

Adjustable keep-warm time

Select how long you want your coffee to stay hot after brewing. You can adjust the

automatic shut-off time from 10 minutes up to 2 hours.

Timer

Wake up with the smell of fresh coffee thanks to the timer. Prepare your coffee maker, set the time, and a fresh jug of coffee is brewed at the time you desire.

Water level indication

Fill the water tank easily and precisely with the water level indication.

Drip stop

The drip stop allows you to pour a cup of coffee before the full brewing cycle is finished.

Grind selector knob

Personalize the coffee taste, by choosing between 9 grind size options. Select a fine grind for a stronger coffee taste or coarse grind for a lighter, smooth filter coffee.

Specifications

Accessories

- Included: Glass jug

Design

- Color: Copper metal

Finishing

- Material of main body: Stainless steel & plastic
- Material water tank: Plastic

Country of origin

- Made in: China
