Highlights

Skin contour system

The skin comfort system catches and cuts hairs of different lengths, without the need for multiple tools or skin contact with sharp edges. The bi-directional trimmers cut longer hairs, which are shaved by the foil for a closer result. The added flexibility of the contour system follows every angle and surface of your body for precisely the look you want. The shaving system is only recommended for body use.

Skin-friendly tips and foil

The skin comfort system features a hypo-allergenic foil and rounded tips to protect your skin while shaving your body. For optimal results, only use the shaving foil system on your body.

Integrated trimmer with combs

The integrated trimmer and adjustable combs for body and beard come with 5 length settings. To maintain your desired hair length or get a natural look, adjust the combs to a length between 3-11mm (1/8" - 7/16").

Rechargeable battery power

High-power NiMH battery for full body use, with 50 minutes of cordless use after an 8-hour charge. The battery light indicates power status, when the battery is low or full.

100% Showerproof

Provides a comfortable and close result in or out of the shower. The body groomer is 100% water-resistant, so you can simply rinse it clean when you've finished. For longer hair, trimming performance may be better on dry hair.

Ergonomic grip

Your body groomer is easy to hold and manoeuvre, with a rubber ergonomic grip to help you keep control while you trim.

Storage pouch

Storage pouch helps you keep your body groomer and combs protected, whether at home or on the go.

Built to last

All of our grooming products are built to last. They come with a 2 year warranty, never need to be oiled and are compatible with any voltage worldwide.
