Bestell-Nr.: 99208I

This InLine® D-Amp 100W amplifier is a Class D amplifier that can be operated as a stereo integrated amplifier or headphone amplifier. The most efficient Class D amplifier (compared to Class A, B and AB), combined with two speakers and an optional subwoofer, delivers at least 50 watts per channel. In addition two connections with different resistances are available for operation as headphone amplifiers. Headphones for mobile use with an impedance of 16 to 300 ohms as well as high-resolution Hi-Fi and studio headphones with an impedance of 300 to 600 ohms can be connected. The speakers can be deactivated via the Speaker on/off switch. The audio input is via a line-in 3.5mm jack input.
