

Say hello to voice-activated printing

HP is the first printer company with voice support for Amazon Alexa, the Google Assistant™, and Microsoft Cortana™¹

Voice-activated printing gives you hands-free access to instant printing options. Choose from a variety of family-friendly documents.²

Easily link your assistant to your printer

Add your printer in a snap—easily connect for seamless printing.²

Print directly from voice assistant-enabled devices

Make printing as easy as talking. HP delivers hands-free printing that fits right into the way you live.²

Get inspiration with every print

Print a wide variety of everyday and creative documents, including calendars, games, coloring pages, and more.²

Alexa, ask my printer to print my shopping list

Ok Google, ask HP printer to print my calendar

Hey Cortana, ask HP printer to print a coloring page from Just Add Color

Frequently asked questions

Which countries is voice-activated printing (VAP) available in?

VAP is currently available in the U.S., UK, Ireland, Australia, New Zealand, and India only.

What equipment do I need to use this service?

VAP requires a web-connected HP printer and a voice assistant (Amazon Alexa, the Google Assistant, or Microsoft Cortana).

What can I print using VAP?

Each voice assistant platform offers unique content for printing, such as an Amazon shopping list or Google calendar, daily comics, coloring pages, graph paper, lists, puzzles, games, and more.

“Printers cannot be forever stuck in the 2000s—with this new voice control technology, HP Inc. is taking the necessary first step in bringing them into the smart home picture.”

Patrick Moorhead, Moor Insights & Strategy

Quick setup

1

Obtain your printer's email address.

2

Ask your voice assistant to talk to your printer.

3

Enter the printer's email address when prompted from your voice device app.

4

Print a help page and view a list of printable content. Just say:

“Alexa, ask my printer to print a help page.”

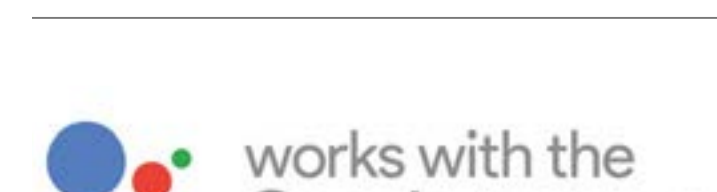

“Ok Google, ask HP printer to print a help page.”

“Cortana, ask HP printer to print a help page.”

(Visit hpconnected.com/cms/HPC/ePrint for ePrint instructions if needed.)

¹ HP Voice-Activated Printing availability varies: in US for Amazon Alexa, the Google Assistant, and Microsoft Cortana; in UK, Ireland, and Australia for Amazon Alexa and the Google Assistant; in New Zealand and India for Amazon Alexa. Compared to inkjet and laser printers and all-in-ones for home and home office, priced less than or equal to \$429.99 USD. Claim based on research of printer manufacturers' published specifications and Keypoint Intelligence – Buyers Lab's study commissioned by HP. See April 6, 2018 report by Keypoint Intelligence – Buyers Lab www.keypointintelligence.com/HPVoicePrint

² Requires a web-connected HP printer with an ePrint account registration. Requires Amazon Alexa, Google Assistant, or Microsoft Cortana.
