

Philips Series 1000
Air Purifier

Night sensing mode

Room size: up to 62 m²
Partial CADR: 260 m³/h
VitaShield

AC1217/10

Healthier air, always

Cleaner Nights, Energized Days

Night sensing mode is a new technology especially designed for your bedroom. Be reassured of constant air quality monitoring and clean air delivery while you sleep. It is quiet as whisper to help you and your family sleep better.

Healthy Air

- Superior purification that can be applied to max 62m² room
- Advanced NanoProtect Filter delivers all-around protection
- Special allergen mode is more effective for allergen removal

Always

- Child lock prevents unintended changes in settings
- Healthy air protect alert for filter lifetime with accuracy
- Certified or tested by ECARF and Airmid
- Quieter and constant clean air delivery during sleep
- Real-time air quality feedback (series 1000)

Design for you

- Touch UI with display

PHILIPS

Highlights

Superior performance

VitaShield

VitaShield with its aerodynamic design and NanoProtect Pro Filter has a boosted clean air delivery rate (CADR) up to 260 m³/hr. It can effectively remove ultra-fine particles as small as 0.003 µm. Also it filters out harmful gases such as TVOC and odor.

Filter HEPA Series 1

The extra thick NanoProtect HEPA is designed for superior purification efficiency and lifetime against airborne particles.

Allergen Mode

The Allergen Mode includes a special event detection algorithm that can deal with daily events such as shaking pillow or a vacuum cleaner passing by. After accurately detecting these events, the purifier will automatically give an extra boost to airflow to instantly reduce the risk level of allergens to a minimum.

Night sensing mode

Night sensing mode is developed especially for your bedroom; The air purifier rapidly prepares your bedroom air for sleep and constantly monitors your bedroom air quality, delivering clean air while you sleep. The dimmed and/or switched off lights and the low sound help you and your family sleep better.

Healthy air protect

The healthy air protect alert lets you know promptly when it is time to replace the filter. If the filter is not replaced promptly, the appliance stops functioning - to avoid ineffective purification. So you are assured of healthier air always.

Child lock

Child lock prevents unintended changes in settings

Real-time air quality feedback

The color ring on dashboard provides a clear view on air quality by 4-step color, ranging from blue (good air quality) to red (bad air quality).

Certification

Certified or tested by ECARF and Airmid*

Specifications

Design and finishing

- Air quality sensor(s): Particle
- Color of control panel: Black
- Control panel type: Touch
- Fan speed indicators: 1,2,3,-Turbo
- Color(s): White

Performance

- Filters out viruses: 99.9 %
- Filters out bacteria: 99.9 %
- CADR: 260 m³/h
- Removes airborne allergens: 99.97 %

Technical specifications

- Cord length: 1.8 m
- Effective area: Up to 62 m²
- Frequency: 50 Hz

- Power: 50 W
- Sound level: 33 dB(A)
- Voltage: 220 V

Country of origin

- Made in: China

Service

- 2-year guarantee

Sustainability

- Packaging: > 90% recycled materials
- User manual: 100% recycled paper

Weight and dimensions

- Dimensions of product (LxWxH): 541 x 325 x 211 mm

Issue date 2018-10-29

Version: 3.0.1
