

# HP Latex R1000 Printer

Help grow your business with easy, automatic printing of high-value rigid jobs, and white<sup>1</sup>

## Get amazing colours for rigid jobs up to 64 inches

- Grow your business into higher value rigid jobs with vibrant HP Latex gamut, preserving media look and feel.
- Gain versatility with HP Latex Ink—from indoor/outdoor signage to thermoforming and high-quality decoration.
- Win more jobs with UL ECOLOGO® Certified, water-based HP Latex Inks that produce odorless prints.<sup>2</sup>

## We've removed the barriers to print with white<sup>1</sup>

- Be creative on a wide range of applications with glossiest white that resists yellowing over time.<sup>1</sup>
- No waste between white jobs<sup>3</sup> with removable HP Thermal Inkjet printheads stored in offline rotating chamber.
- You're always ready to print white—automatic recirculation and printhead cleaning eliminate manual purging.

## Manage your peaks in-house with smart printing

- Get high-speed quality in all print modes—print up to 15 outdoor bds/hr with belt system and smart vacuum.<sup>4</sup>
- Help avoid costly operating mistakes with an easy interface, including assisted loading and advanced queuing.
- Maximise uptime with automatic maintenance and smart service tools for fast diagnosis and issue resolution.
- Keep your operators always up-to-date with HP PrintOS continuous online training.

Dynamic security enabled printer. Contains technology that may prevent cartridges with non-HP chips or circuitry from working now or in the future. More at: <http://www.hp.com/learn/ds>

<sup>1</sup> Glossiest white based on internal HP testing in January, 2018 compared to leading competitive printers with CMYK configuration under \$350,000 USD. Based on level of gloss at 60 degrees on a rigid material (acrylic). Tested using Glossmeter BYK micro-TRI-gloss (20°, 60°, 85°), compatible with ISO 2813 and ASTM D523 relative to glossiness measure.

<sup>2</sup> HP Latex Inks are UL ECOLOGO® Certified. UL ECOLOGO® Certification to UL 2801 demonstrates that an ink meets a range of multi-attribute, lifecycle based criteria related to human health and environmental considerations (see <http://www.ul.com/EL>). There is a broad set of media with very different odor profiles. Some of the media can affect the odor performance of the final print.

<sup>3</sup> When HP 886 White Latex Printheads are placed in the storage cassettes, no white ink is used for servicing when printheads are not in use.

<sup>4</sup> Outdoor mode 3-pass, 70%. On 4 x 8 ft (1.2 x 2.4 m) boards.
