PHILIPS

Highlights

Auto keep warm

The keep warm function automatically switches on when the water is boiling and keeps your tea at the right temperature as long as you like.

1750 Watt heating system

The 1750 Watt heating system in the teamaker allows for fast heat-up of the water.

Large 1.8L kettle

A large 1.8L kettle to boil water for family and friends.

0.95L glass pot

With the 0.95L glass pot you can make tea for all of your family and friends.

DURAN® glass body

A product brand of
DWK Life Sciences

The glass pot is made of heat resistant DURAN® glass which is robust, long-lasting and best for high temperature application like boiling.

Stainless steel design

Durable full-metal design in food-grade brushed stainless steel for long, reliable use.

One lid fits both kettle & pot

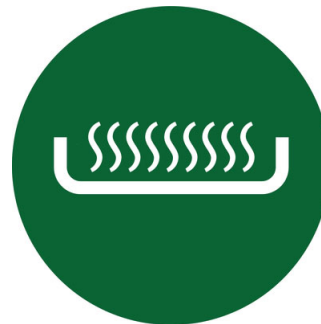

One lid which fits both the kettle and the pot.

Pilot light

Elegant red light indicator light incorporated in the handle illuminates when the kettle is turned on. The light switches to green color when the auto keep warm function is on.

Flat heating element

The stainless steel concealed element ensures fast boiling and easy cleaning.

Cordless + 360° pirouette base

The cordless kettle sits on a 360° pirouette base for easy lifting and replacing.
