- Connect to your Hue Bridge for full smart lighting control

PHILIPS

Single bulb E26

1 x E26 bulb Warm white light, Smart control with Hue Bridge*, Control with your voice

046677530341

Highlights

Make it look like you're home

Use the Philips Hue app to schedule light routines whenever you're away. Your smart lights will turn on at the times you've selected — and sometimes a few minutes before or after — to truly mimic your presence in the house.

Come home with light

Set your Philips Hue app to recognize when you're nearing home. Before you even step out of your car or walk up the path, your selected smart lights turn on automatically.

Control lights away from home

The Hue app gives you complete control over your lights, even if you're not home. Switch your lights off and on remotely using just the app to ensure your home is always lit the way you want it.

Control with your voice

When connected to the Hue Bridge, you can pair your lights with Alexa, Apple HomeKit, and the Google Assistant and control your lights using just your voice. Simple voice commands let you turn your lights on and off, dim or brighten your lights, and even set a light scene.

Sync with sunrise and sunset

Coordinate your smart lights with the sun or ensure you get more light out of your day. Set timers to turn your lights on and off whenever you'd like, or simply sync your lights with the sunrise or sunset.

Connect to the Hue Bridge

This product requires a connection to the Hue Bridge to unlock the full smart control and features. Control your lights using the Philips Hue app, set timers, routines, add or remove lights and more.

*Hue Bridge sold separately
