

22BK400H-B

22" TN FHD Monitor

KEY FEATURES

- 22" (21.5" diagonal) TN Display
- FHD Resolution (1,920 x 1,080)
- AMD FreeSync™ Technology
- Dynamic Action Sync
- Black Stabilizer
- On Screen Control
- Smart Energy Saving

You're in front of your monitor for hours on end. Make the most of your time, with an LG Full HD LED monitor. The clarity of 1080p pixel resolution is a game-changer. Simply put, everything looks more detailed than standard HD.

AMD FreeSync™

AMD FreeSync™ reduces the stuttering that can occur between a graphic card's frame rate and a monitor's refresh rate.* This enables smoother motion and less stuttering in demanding applications.

Black Stabilizer

Keep visibility even in dark scenes. LG's Black Stabilizer senses dark scenes and helps make it brighter so that you can pick out critical details and work smarter on challenging projects.

On-Screen Control

On-Screen Control puts a host of essential monitor settings into a handy window for quick, easy access. Volume, brightness, picture mode presets, Screen Split 2.0, Dual Controller and more can now be adjusted with just a few mouse clicks instead of buttons on the monitor.

Wall Mountable

This monitor gives you the freedom to take it off the desk and hang it on the wall. Liberate your viewing options and save desktop space with this wall-mountable LG monitor.

*Available only when connected to Display Port or HDMI.

Specifications: 22BK400H-B
