Proven health benefits

- Supported by the Medical Device Directive (MDD)

Feel energetic in 30 minutes a day

- Original Philips EnergyLight lamps

Easy positionable for personal preference

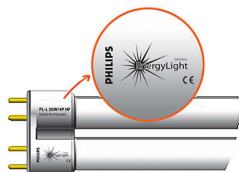

- Adjustable angle

Comfortable light

- Light intensity dimmer

Highlights

Original Philips EnergyLight lamps

The EnergyLight features original Philips EnergyLight lamps producing light with all the intensity and quality of natural daylight. In fact, it can give you up to 10,000 lux, but without any unpleasant dazzle or glare. If you use the EnergyLight for just 30 minutes a day (there's no need to stare into the lamp all the time) at a light intensity of 10,000 lux, you'll notice an improvement in your energy level and mood after just 5 days' use.

Digital timer and display

The EnergyLight HF 3309 is equipped with a digital user interface with built-in user protocol for easy use, which also gives direct feedback on the amount of energy gained.

Light intensity dimmer

Fight winter blues and get the energy you have in summer while using the appliance at a convenient level of light you need for easy-

reading etc. The EnergyLight features a light intensity dimmer so it can easily be adjusted between zero to about 10,000 lux (at 15-20 cm) matching the intensity of your personal preference.

Adjustable angle

The appliance can be positioned at various angles for comfortable use.

UV-free

The EnergyLight uses the full natural daylight spectrum. It meets European safety standards and features a UV-filtering screen. The EnergyLight is therefore safe to use.

Supported by the Medical Device Directive (MDD)

This device has proven health benefits, as certified by the Medical Device Directive (MDD).

Specifications

Technical specifications

Power: 72 W
Cord length: 3 m
Insulation: Class II (double isolation)
Frequency: 50/60 Hz
Voltage: 220/230
Type of lamps: 2 PL-L 36W Philips EnergyLight
Lifetime of lamps: 10,000
Type of ballast: HF-R 232PLT (High Frequency)
Ballast operating frequency: 42.000 kHz

Weight and dimensions

Product weight: 3.5 kg
Product dimensions: 33x57x18 (WxHxD) cm
Qnt. on Euro pallet: 30 (UK 39) pcs
F-box dimensions (= A-box): 36x62.2x21.5 (WxHxD) cm
F-box weight (= A-box): 4.4 kg

Logistic data

CTV code: 884330901000
