

PRODUCT FICHE - AIR CONDITIONER

Brand	WHIRLPOOL
Commercial code	SPIW312A2WF
Cooling sound power value for IDU	56
Cooling sound power value for ODU	63
Heating sound power value for IDU	56
Heating sound power value for ODU	63
Refrigerant gas type	R32
Refrigerant leakage contributes to climate change. Refrigerant with lower global warming potential (GWP) would contribute less to global warming than a refrigerant with higher GWP, if leaked to the atmosphere. This appliance contains a refrigerant fluid with a GWP equal to 675. This means that if 1 kg of this refrigerant fluid would be leaked to the atmosphere, the impact on global warming would be 675 times higher than 1 kg of CO₂, over a period of 100 years. Never try to interfere with the refrigerant circuit yourself or disassemble the product yourself and always ask a professional.	675
SEER cooling	6.1
Energy class cooling	A++
Energy consumption 201 kWh per year, based on standard test results. Actual energy consumption will depend on how the appliance is used and where it is located.	201
Design load for cooling (kW)	3.5
SCOP heating average (Green)	4
Energy class heating	A+
Energy consumption 1155 kWh per year, based on standard test results. Actual energy consumption will depend on how the appliance is used and where it is located.	1155
Seasonal design load heating average (Green)	3.3
Seasonal design load heating colder (Blue)	0
Seasonal design load heating warmer (Orange)	0
Declared capacity (kW)	2.6
Back up heating capacity (kW)	0.7
Energy consumption 0, 0 kWh per 60 minutes, based on standard test results. Actual energy consumption will depend on how the appliance is used and where it is located.	0, 0
