

MPN: KON501-10R

10 x RJ11 6P4C

The KON501-10R Modular Plug RJ11 6P4C provides a reliable and efficient solution for terminating telephone cables. This package includes 10 high-quality RJ11 connectors, each configured with 6 positions and 4 conductors (6P4C), ensuring compatibility with standard telephone jacks. Ideal for creating custom-length phone cables or repairing existing connections, these plugs offer secure and clear communication. MicroConnect brings over 20 years of expertise to connectivity, and these plugs are crafted to European standards, ensuring a lasting, high-performance connection. They're a perfect addition to any toolkit, delivering premium quality and ease of use for both professional installers and DIY enthusiasts.
