- Speed specifications have been updated to reflect current industry testing methods.
 Either after first page or after first set of ISO test pages. For details see hpt://project.org/lines/by-nc-1/4
 Wireless performance is dependent upon physical environment and distance from the access point. Wireless operations are compatible with 2.4 GHz routers only; excludes wireless direct. Wireless direct may require driver or apps be installed and connected on wireless-enabled mobile device or PC. Wireless functionality may vary by computer and mobile operating systems, see hpconnected.com. Separately purchased data plans or usage fees may apply. Print times and connection speeds may vary. AirPrint supports 05 X v10.11 El Capitan and devices running 105 4.2 or later and requires the printer be connected to the same network as your 05 X or i05 device. AirPrint, the AirPrint Logo, iPad, iPhone, and iPod touch are trademarks of Apple® Inc. Windows is a trademark of the Microsoft group
- Based on standard ITU-T test image #1 at standard resolution. More complicated pages or higher resolution will take longer and use more memory.
 HP recommends that the number of printed pages per month be within the stated range for optimum device performance, based on factors including supplies replacement.
- ⁶ Dimensions vary as per configuration
- Weight varies as per configuration
- Power requirements are based on the country/region where the printer is sold. Do not convert operating voltages. This will damage the printer and void the product warranty. For more information about page yields for replacement cartridges see hp.com/go/learnaboutsupplies for setup cartridges click on Setup supplies link on the same page.

 **PACTUAL yield varies considerably based on content of printed pages and other factors. For details see hp.com/go/learnaboutsupplies.
