- Maintains the coffee taste over time
- Perfect decalcification for a prolonged machine lifetime
- L'OR Barista approved descaling solution
- Protects your system against limescale build-up
- Only use L'OR Barista descaler

Highlights

250 ml descaling solution

L'OR Barista descaler contains 250 ml of descaling solution, suitable for 2 cycles. Use half of the bottle, as marked on the label, and store the other half for your next descaling procedure.

Coffee temperature is right

The decalcifier removes limescale residues in the water cycle that would absorb heat from the boiler, therefore lowering your coffee temperature.

Maintain the coffee taste

Regular maintenance ensures the best taste and aroma from your L'OR Barista coffee machine.

Perfect decalcification

The L'OR Barista decalcifier cleans all of the water circuits in your coffee machine.

L'OR Barista formula

The exclusive formula of the L'OR Barista coffee machine decalcifier ensures thorough decalcification without harming the delicate parts inside your appliance.

Protected from limescale

Limescale is a natural part of water used for the machine's operation. This special decalcifier protects your appliance from the build-up of limescale which affects performance and taste. It is highly effective, safe and easy to use.

L'OR Barista Original descaler

Only use L'OR Barista descaler to make sure that your machine runs smoothly for longer. L'OR Barista descaler is designed to take the best care of your L'OR Barista coffee machine.
