HP Stitch S500 64-in Printer

The robust, efficient printer for highly demanding dye sub users¹

- Double your unattended printing capacity without increasing your Reduce downtime and service costs. For production space.² the first time, you can replace the
 - Efficiently manage your fleet, and • remotely monitor printer status and ink and substrate use, with HP PrintOS.
 - Easily observe the status of your printerat a glance and from afar-with the highly visible beacon.

This printer is intended to work only with cartridaes that have a new or reused HP chip. and it uses dynamic security measures to block cartridaes using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: http://www.hp.com/learn/

Specification Footnotes

¹The colour variation inside a printed job has been measured at 6-pass mode on transfer media and also in direct-to-fabric situations within this limit: maximum colour difference (95% of colours) < 1.5 dE2000. Reflective measurements on a 943 colour target under CIE standard illuminant D50, and according to the standard CIEDE2000 as per CIE Draft Standard DS 014-6/E:2012. 5% of colours may experience variations above 1.5 dE2000. Backlit substrates measured in transmission mode may yield different results. Results are dependent on sublimation process variability.

on paper based materials. Recommended external relative humidity is between 25% to 50%.
