I'm larger than life

Keep your eyes on the size. With a high-resolution picture, intuitive menu navigation, a variety of display options, crisp sound and super-slim design, the Hisense H8 Series 4K Ultra HD Smart TV will earn you major bragging rights. Personalize your experience with tons of included apps like Netflix, YouTube, VUDU, TikiLive, FandangoNow, iHeartRadio and Pandora, or surf the internet with the builtin web browser. It's also equipped with a UHD Upscaler to bring lower-resolution content as close to 4K as possible—a truly affordable luxury. Upgrading your home? No—this is more like upgrading your life.

4K Resolution

With over 8 million pixels, the Hisense H8 Series offers a clearer, more defined picture when compared to Full HD. Breathe new life into older videos thanks to our UHD Upscaler, which brings lower resolution as close to 4K as possible. Get ready to experience your favorite movies, games and shows in a whole new way.

HDR

High Dynamic Range boosts the contrast of every image while delivering vivid, deep colors. With HDR* enhancements to the darkest and lightest areas of the picture, the Hisense H8 Series delivers an image that looks closer to life.

 $^{*}\mathrm{HDR}$ viewing experience will vary by model, content availability and internet connection.

Motion Rate

Don't struggle to keep your eye on the ball—enjoy fast-paced sports, movies and 4K gaming without the lag. Featuring Motion Rate™ 120 image processing technology, the Hisense H8 Series keeps the thrills coming by reducing judder during fastmoving scenes.

Local Dimming

The Hisense H8 Series features local dimming zones in the back panel of the TV, producing a better picture by heightening the image contrast. By creating super-detailed contrast, our local dimming technology offers a very realistic, very accurate and very, very pretty picture.
