

MPN: KEYSTONE-11

Keystone module CAT6, STP RJ45 F-F

The Keystone module CAT6, STP (MPN: KEYSTONE-11) provides a high-performance shielded connection point for your network. This CAT6 keystone module ensures optimal data transmission speeds and reliable connectivity within your structured cabling system. The STP (Shielded Twisted Pair) design minimizes electromagnetic interference (EMI) and crosstalk, making it ideal for environments with high electrical noise. It's perfect for creating clean and organized network installations in offices, homes, or data centers. Trust MicroConnect's 20+ years of expertise to deliver premium quality and reliable connectivity for your critical applications, ensuring a robust and future-proof network infrastructure. This keystone offers simple installation and long-lasting performance.

Specifications

Features	Cable shielding	S/UTP (STP)
	Cable types supported	Cat6
	Connector 2	2x RJ-45
	Connector 2 gender	Female
	Construction type	Flat
	Housing material	Metal
	Product colour	Black, Silver
Vendor information	Brand Name	MicroConnect
	Homepage	https://microconnect.me/
	Warranty	25 Year(s)
