PHILIPS

Highlights

A cup or a mug of Senseo®

With this Senseo® coffeemaker you can prepare a medium cup or a big mug of delicious Senseo® coffee from pads in less than a minute.

Crema plus technology

Crema Plus technology ensures the finest and most velvety crema layer. For each SENSEO® cup of coffee.

Coffee Boost technology

Coffee Boost technology disperses the hot water, via 45 aroma nozzles, evenly through each SENSEO® coffee pad. Get the most out of your coffee pad for the best tasting SENSEO® coffee.

Decalcification indicator

The SENSEO® coffee maker reminds you when to descale. Descalc with SENSEO®. Descalc every 3 months to keep your appliance lime scale free; ensuring: maximal in-cup volume; perfect coffee temperature, and; the appliance's durability. Do not use vinegar, since it might damage your SENSEO® appliance and affects the coffee taste.

Automatic shut-off

The SENSEO® coffee maker automatically shuts off after 30 minutes after making coffee, for energy cost saving and appliance safety.

Variety of pad & filter coffee

With Senseo® Switch you can enjoy variety of medium and large pads and filter coffee blends and flavors. Therefore you can always drink the coffee you like the most.

Direct start

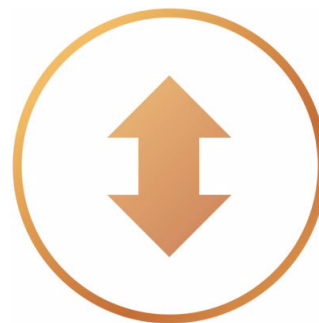

When pressing the 1 or 2 cup button, while the appliance is heating-up, SENSEO® automatically starts brewing your delicious SENSEO® coffee.

Machine is tested >10.000 time

Philips tests their coffee makers during the development process for more than 10.000 cups of coffee. This ensures high quality and durability

Adjustable real metal spout

Adjust the spout's position to fit your favorite cup or mug

Real metal drip tray

Real metal drip tray

Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas – Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.
