

# NGS PREMIUM SPEAKER SKY BOX

## MICRO SYSTEM 60W- BLUETOOTH/USB/LINE IN/FM CD PLAYER - REMOTE CONTROL

NGS launches a 60W micro system with CD and Bluetooth Technology that outstands for its elegant design and excellent sound quality.

This sound system is equipped with USB and AUX IN audio input, NGS Sky Box also features FM Radio.

One of the main functions is that converts your favorite CDs to MP3 files, storing the music in a USB memory without a computer, directly from the remote control.

Clear and dynamic sound able to communicate with any wired or wireless device.

### Bluetooth

Thanks to its Bluetooth® connection you will play your favorite songs and playlists straight from selected smartphones or tablets easily.

### FM Radio

Tune in to your favorite FM stations and store them thanks to its built-in FM radio tuner

### USB Port

Plug in a USB stick and play all your digital files, Skybox supports MP3, WMA, WAV, and AAC formats.

### Audio Input and Output

Connect any external audio source through a 3.5 mm jack cable.

You can also connect any amplifier via the audio output located at the rear part (RCA) of the speaker.

### CD Player

Insert your CD and lose yourself in superb sound.

Convert Audio CD to MP3

Enables you to save in USB a memory all your CD and convert the tracks into MP3 files. You just have to press the button and you will be able to share the music from one device to another. That way, you can enjoy them anywhere you go.

### Materials

The box is made of wood, offering an excellent audio quality and a spectacular acoustics.

### Design

Sky Box stands out for its stylish and modern design that fits perfectly into every home.

### Equalizer Mode

Depending on the different types of music you want to play, you can select among 4 equalization modes by pressing DSP button.

In each type of equalization, you can enjoy various musical effects of their own style. Except in the Normal one, in which the original effects will be preserved without any modification

### MonoDual Mode:

Select the ouput channel (right, left or both)

### Remote Control:

Noted for the ease of use and convenience. You can adjust the volumen, turn on/ off the speaker both manually and using the remote control.

### LED Display

It features a LED screen that gives useful info such as: Mode, Radio frequency, Track number, etc.

### Treble and Bass Remote Control

Treble and house-shaking Bass Control for easy high and low tone settings.

### Repeat Function:

With this option you can repeat the track you are listening to or the whole content from a USB memory or CD.
