Kitchen Cleaning & Food Safety

Cleaning is not the most popular job in the kitchen, but in times where **Hazard Analysis Critical Control Points** sets the rules for high standards of hygiene, cleaning is one of the most important jobs to be done.

To help you comply with the HACCP rules, 3M™ offers a full range of **innovative products** for fast and efficient **cleaning of your kitchen equipment**: pots, pans, griddles, and sink tops. 3M products are soft enough to avoid scratching, yet tough enough to quickly and easily remove burnt-on and dried-on food. 3M products will help you remove grease or any kitchen grime from any corner.

Discover our Scotch-Brite™ products to **scour, clean and wipe** all kinds of surfaces in your kitchen and choose the right tool for each cleaning job.

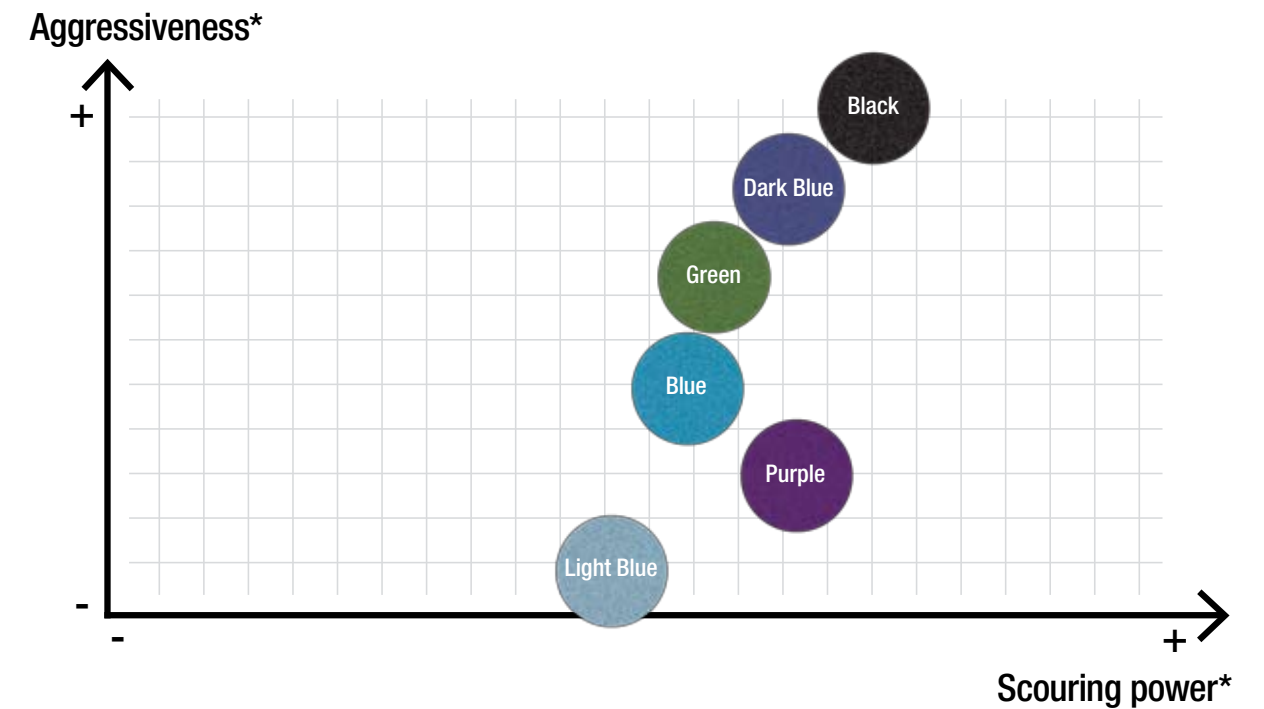

Food safety is a key point nowadays in the kitchen. 3M brings you solutions to help you comply with local health regulations, to meet HACCP requirements. 3M **oil monitoring** solutions allow you to control the quality of your frying oil and dispose of it at just the right time.

Why not take advantage of the brilliant ideas and products which 3M has to offer? They give you the freedom to concentrate on the culinary aspects of your catering business, **transforming eating into dining**.

Kitchen Cleaning - Scouring

There is always a Scotch-Brite™ solution designed for any scouring application

Kitchen Cleaning - Scouring

The classical Green: for general purpose scouring

All green webs are not created equal!

3M production cycle ensures abrasive particles are dispersed throughout the pad in an even way giving you excellent scouring power throughout the life of the pad. Scotch-Brite™ pads will not only last long but also keep their effectiveness over time. Constant quality checks make sure you have the best quality product in hand. Our web does not rust or splinter and therefore does not leave residues!

Green

Scotch-Brite™ 74 sponge

Daily cleaning of pots and pans as well as wiping walls, tables, and countertops.

- Long lasting thanks to the abrasive particles spread throughout the pad
- Dual functioning sponge and scouring web
- Non-rusting and resilient
