- Enjoy the confidence of smooth skin
- Slide and flash modes
- Suitable hair and skin types

Maximum freedom, minimum hassle

- SmartSkin sensor with 5 settings
- Corded and cordless use
- No replacement parts, no hidden costs

Highlights

Long lasting hair removal

Philips Lumea uses an innovative light based technology, called IPL, to break the cycle of hair regrowth. Gentle flashes of light applied to the root, prevent the hair follicles from becoming active again, after several treatments. Developed closely with skin experts and dermatologists, and derived from professional beauty salons, Philips has adapted this technology for safe and effective use in the comfort of your home.

Application body areas

Philips Lumea for Men has been developed in close cooperation with leading dermatologists for a safe, effective and gentle application on arms, underarms, shoulders, stomach, pubic area (excluding the scrotum), legs, chest and back

Apply Lumea

1. Apply Philips Lumea every 2 weeks for the initial 4 - 5 treatments
 2. In between treatments, hair falls out naturally and regrowth is inhibited
 3. Afterwards, repeat the treatment every 4-8 weeks

Enjoy the confidence

Philips Lumea uses an innovative light based technology, called IPL, to break the cycle of hair regrowth. Gentle flashes of light applied to the root, prevent the hair follicles from becoming active again, after several treatments.

SmartSkin sensor

Automatic setting advice based on your own skin tone.

Slide and flash modes

The slide and flash modes enables fast treatment on large body areas thanks to the largest treatment window (4.1 cm² window size).

Corded and cordless use

This Philips Lumea for Men is the IPL device that can be used with or without cord for complete convenience. Use cordless for full freedom of movement and plug in when needed for treatment with no interruptions.

Suitable hair and skin types

Philips Lumea works effectively on a wide variety of hair and skin types. Works on (naturally) dark blonde, brown and black hairs and on skin tones ranging from very white (I) to dark brown (V). As with other light based treatments, Philips Lumea is NOT meant to treat red, light-blonde or white/grey hair. This product is also NOT suitable for very dark skin (skin type VI).

No replacement parts needed

Philips Lumea is a complete solution that comes ready to work straight out of the box. No refill cartridges or gels needed.
