\*Black and composite colour average per bottle (cyan/magenta/yellow) results based on HP methodology from the simulation of continuous printing of ISO/IEC 24712 test pages. Not based on ISO/IEC 24711 test process. An additional black ink bottle is required to print 8,000 colour test pages. Actual yield varies based on content of printed pages and other factors. <sup>1</sup> HP inktflessen in vergelijking met HP inktcartridges. Kosten per pagina gebaseerd op de verwachte gezamenlijke opbrengst van zwarte en kleureninkt (cyaan/magenta/geel) op basis van HP testmethode bij continu printen van ISO/IEC 24712-testpagina's. Niet op basis van het ISO/IEC 24711-testproces. De werkelijke opbrengst varieert, afhankelijk van de inhoud van de geprinte pagina's en andere factoren.
