Highlights

Trim-n-Flow Pro technology

The innovative comb design allows cut hair to flow away from the blades during use, preventing even long hair from getting stuck in the comb, so you can start and finish your style without interruption.

DualCut Technology

Power through any type of hair with our advanced DualCut technology: an innovative two-sided cutting element that cuts hair twice as fast as one-sided blades.

27 lock-in length settings

Turn the zoom wheel to select and lock in the length you want. The 2 adjustable combs cut between 3mm and 28mm, with precisely 1mm between each length. Remove the comb entirely for a close 0.5mm trim.

Corded or cordless use

The hair clipper's powerful battery provides up to 90 minutes of cordless power after 1 hour of charging. Giving you maximum power and freedom.

100% washable**

The clipper is waterproof for easy, hassle-free cleaning under the tap. Rinse thoroughly with water only to always keep the clipper working like day one.

Quiet mode for kids

Children's hearing is more sensitive than adults' while their hair is finer. So, we engineered the perfect balance of power, performance and quietness, to keep you and your child happy with each haircut.

Comfortable grip

The Hair Clipper Series 5000 is designed to be comfortable to use, convenient to handle and easy to operate. The special texture and grip allow you to easily move the clipper and cut all around your head.

Zero maintenance

Save time and hassle with long-lasting self-sharpening blades that stay as sharp as day one, even after 5 years. The clipper is 100% washable** for fast and easy cleaning under the tap.

2-year worldwide warranty

All of our grooming products are built to last. They come with a 2-year worldwide warranty and worldwide voltage compatibility.
