TrueLine DIRECT/INDIRECT OC - LED Module, system flux 3600 lm - 840 neutral white - Power supply unit with DALI interface - ActiLume - Push-in connector 5-pole - Suspension set 2-wire - 1170 mm

Architects need a lighting solution that matches the interior architecture of the property they are working on. They want a light line with an elegant design and very high light levels. Specifiers need luminaires that enable them to save energy while at the same time providing the right level of light, in compliance with office lighting norms. TrueLine, suspended is able to meet both sets of requirements. TrueLine is also available in recessed and surface-mounted versions.
