ECOTANK PRINTERS ECOTANK M2140/M2170

The monochrome EcoTank M2140 and M2170 multi-function printers are designed to ensure the finest office printing experience. With each print, you save big on energy and printing costs as it costs just 12 paise* per print while consuming up to 20X4 less power than mono laser printers which, in turn, ensures minimal impact on the environment. A speed of 20 ipm ensures that every job is done well within time. The flexibility to print, scan, copy and fax ensures productivity like never before. A high print yield of 6,0001 prints ensures printing without the inconvenience of frequent refills.

Designed to support the Sustainable Development Goals (SDGs) set by the UN

Each printer comes bundled with a starter kit of 1 high capacity bottle of Epson genuine ink.

Cutting-edge Printhead Technology

Meet every deadline with swift printing as these printers enable high-quality printing at the speed of 20 ipm.

Multi-functional Edge

Enhance your productivity to a whole new level as these printers enable you to print, scan, copy and fax effortlessly.

Better For The Environment

Low power consumption and less replacement parts compared to laser printers mean less e-waste for a positive impact on the environment.

11 Print speed (Pages Per Minute) is calculated when printed on A4 plain paper in the fastest mode. Print speed may vary depending on system configuration, print mode, document complexity, software, type of paper used and connectivity. Print speed does not include processing time on host computer.

#1 Black Text and graphics

- *2 Default mode in accordance with ISO7779 for MFPs
- *3 Quoted yields are based on the ISO 24711/24712 patterns of mixed text and black-and-white graphics with Epson methodology. Quoted yields are based on the replacement ink bottles purchased. For print quality, part of the ink from the included bottles is used for printer startup so yields could be lower than those of replacement ink bottles. Actual yields will vary due to reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently. Ink is used for both printing and printhead maintenance.
