

AG271FZ2

27 inch (69 cm) LCD MONITOR

Super-smooth and responsive

240Hz Refresh rate

By far the fastest refresh rate on the market, 240Hz completely unleashes top end GPUs, bringing unprecedented fluidity to the picture on your screen. With every detail brought sharply into focus and every movement shown with crystal clarity, feel your reactions become one with the action and elevate your game.

Shadow Control

Bring the battle out of the shadows with Shadow Control! Brighten dark areas or sink them back into blackness on the fly, without affecting the rest of the display.

0.5ms Response Time

A pixel response time of 0.5ms MPRT means speed without the smear for an enhanced experience. Fast-moving action and dramatic transitions will be rendered smoothly without the effects of ghosting.

NVIDIA G-SYNC Compatible + AdaptiveSync

Achieve the highest framerate and smoothest display possible via NVIDIA G-SYNC Compatibility and AdaptiveSync. Leave your opponents in your smoothly rendered dust.
