Provides a superior clean

- Removes up to 2x more plaque than a manual toothbrush
- Better plaque removal to help reduce cavities

Designed around you

- Easy-start programme builds your Philips Sonicare routine
- Timers encourage thorough 2 minutes of brushing

Optimise your brushing

- Angled brush head for better access to back teeth
- Philips Sonicare's advanced sonic technology

Highlights

Removes up to 2x more plaque

Patented Sonic Technology removes up to 2x more plaque than a manual toothbrush.

Helps reduce cavities

Provides better plaque removal and access to back teeth; brushing twice a day every day with this brush can help reduce cavities

The only true sonic technology

Philips Sonicare's advanced sonic technology pulses water between your teeth, and its brush strokes break plaque up and sweep it away for an exceptional daily clean.

Better access to back teeth

Slim, angled brush head provides better access to back teeth and hard-to-reach places

Quadpacer and Smartimer

It takes just 2 minutes to thoroughly brush your teeth. Our Quadpacer lets you know when you've spent the optimal amount of time on each section of your mouth while our Smartimer signals when your total time is up. Together they help you reach your recommended brushing time, every time.

Ease into your new routine

Starting something new can take some getting used to. Our easy-start programme gives you the option of a gradual, gentle increase in brushing power with the first 14 uses of your new toothbrush.
