# HP DesignJet Z9+ PostScript Printer series

Professional photo prints, fast and simple. More quality with fewer inks.

### AMAZING—Deliver high quality with confidence

- Impress the most demanding customers with smooth transitions and sharp details thanks to HP Pixel Control
- No need for light inks using new high-definition HP printheads with dual drop technology.
- Achieve expanded gamut with RGB HP Vivid Photo Inks and the embedded spectrophotometer.<sup>1</sup>
- Get superior gloss uniformity by upgrading your printer to include HP Gloss Enhancer.<sup>2</sup>

#### FAST—Work without delays

- Cut post-processing labor time up to 20% with the first printer to include an integrated vertical trimmer.<sup>3</sup>
- Print up to 2.5 times faster<sup>4</sup> without losing quality, with 2400 nozzle-per-inch highdefinition printheads.
- Spend less time on media changes and adjustments with dual roll support and automatic roll switching.<sup>3</sup>

#### SIMPLE—New tools for you and your customers

- Easily design applications from posters to banners and canvas with the HP Applications Center.<sup>5</sup>
- No disruption to your workflow, keep using your current RIPs, validated with HP RIP certification program.<sup>6</sup>
- Get remote visibility and control to better manage your print production environment with HP PrintOS.
- Enjoy one-click printing that also helps reduce media waste using HP Click printing software.<sup>7</sup>

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: http://www.hp.com/learn/ds

<sup>&</sup>lt;sup>1</sup> Embedded in the HP DesignJet Z9+ Printer series is an i1 spectrophotometer from X-Rite. Close collaboration between HP and X-Rite ensures a reliable solution that's been thoroughly tested to meet customer demands for ease, quality, and dependability.

<sup>&</sup>lt;sup>2</sup> Based on internal HP testing, comparing to HP DesignJet Z9+ series printers without gloss enhancer. HP Gloss Enhancer can be used on photo paper, with the exception of matte-finish papers. Optional upgrade available second half 2018. <sup>3</sup> Vertical trimmer and dual rolls included with the HP DesignJet Z9+dr 44-in PostScript® Printer with V-Trimmer only. Up to 20% reduction in post-processing labor time based on internal HP testing compared to HP

DesignJet Z9+dr series printers without built-in vertical trimmer. <sup>4</sup> Based on internal HP testing. Up to 2.5 times faster printing compared to the HP DesignJet Z3200 Photo Printer series. May vary depending on print mode and media type

 <sup>&</sup>lt;sup>5</sup> Requires an HP Applications Center account, Internet connection, and connected Internet-capable device. For more information, see http://www.hpapplicationscenter.com
 <sup>6</sup> For a list of HP certified RIPs, visit: http://www8.hp.com/us/en/large-format-printers/designjet-printers/zseries-rips.html
 <sup>7</sup> Once image is selected, one-click printing when printing the entire file without any modifications to the print settings. Applicable to PDF, JPEG, TIFF, and HP-GL/2 files.
