The Alienware Mechanical Gaming Keyboard

The Essential Gaming Keyboard

For over two decades, Alienware has been dedicated to creating iconic and meticulously designed products to provide the ultimate gaming experience. Driven by our passion and guided by our fans, Alienware is now excited to announce the arrival of the essential gaming keyboard – the Alienware Mechanical Gaming Keyboard.

Overview

The Alienware Mechanical Gaming Keyboard provides all the fundamentals that gamers need while still offering industry leading components and design. Incorporating the latest generation Cherry MX keys in a floating key architecture with anti-ghosting and on-board memory, this keyboard offers the functional perks of a gaming keyboard in a compact form factor.

Designed for gamer-centric personalization, this gaming keyboard features fully programmable keys for macros and key assignments, while dedicated audio controls allow for quick and accurate adjustments to be made.

Gamers can now enjoy better control with quick and smooth triggering thanks to the latest generation Cherry MX Red keys which combine linear switching characteristics with a low actuation force. Ideal for action gamers, the Cherry MX Red switch provides incredible response times and smooth operation.

The Alienware Mechanical Gaming Keyboard also features the Signature Alienware ergonomic design and a more natural palm posture while the redesigned three section layout allows for easy navigation.
