ALIENWARE™

The Alienware Wireless Gaming Mouse
Full-Sized Mobile Gaming Mouse

For over two decades, Alienware has been dedicated to creating iconic and meticulously designed products that provide the ultimate gaming experience. Driven by our passion and guided by our fans, Alienware is now excited to announce the arrival of a gaming mouse that allows you to take your game wherever you go – the Alienware Wireless Gaming Mouse

Overview

The Alienware Wireless Gaming Mouse is a full-sized mobile gaming mouse. Armed with 6 fully-programmable buttons, and capable of providing up to 300 hours of gaming, the Alienware Wireless Gaming Mouse lets you game without boundaries.

Designed to let you take your game wherever you go, the Alienware Wireless Gaming Mouse incorporates industry leading power efficiency that lets you game up to 300 hours on a single AA battery. Armed with 6 buttons that are fully-programmable via the Alienware Command Centre, this gaming mouse also boasts the latest generation 12,000 DPI custom-tuned PixArt sensor that offers superior performance.

The Signature Alienware ergonomic design offers a versatile grip that caters to any style and an expanded palm support for greater stability. The easy grip and full hand support provide complete comfort for marathon gaming sessions.

The Alienware Difference

• Industry-leading power efficiency that is capable of 300 hours of gaming on a single AA battery for complete wireless freedom

• 6 button layout that is fully programmable via Alienware Command Centre software

• Latest generation 12,000 DPI PixArt Sensor for precision and accuracy

• Pre-loaded tension on main mouse buttons for a controlled, crisp, tactile click feel

• Signature Alienware ergonomics that cater to a majority of hand sizes & usage styles, and is designed for comfort for long hours of gameplay

• A robust construction and premium finish ensure it is built to last

• Available in Black
