

The Alienware Wired/Wireless Gaming Mouse

No Compromise Full Featured Gaming Mouse

For over two decades, Alienware has been dedicated to creating iconic and meticulously designed products to provide the ultimate gaming experience. Driven by our passion and guided by our fans, Alienware is now excited to announce the arrival of a gaming mouse versatile enough to fit any gamer's preference – the Alienware Wired/Wireless Gaming Mouse.

Overview

The Alienware Wired/Wireless Gaming Mouse is a no-compromise, fully featured gaming mouse created to provide gamers with the best wireless gaming experience.

Versatile enough to fit any gamer's usage preference, this gaming mouse offers equal polling rate in both wired and wireless mode, ensuring maximum performance any way you choose to use it. The Alienware custom adjustable scroll wheel also allows users to toggle between either 12 or 24 steps per revolution for greater precision and control.

With industry leading power efficiency, users can game for up to 350 hours on a single charge while a best-in-class custom Alienware native 16,000 DPI sensor offers unsurpassed accuracy. The Alienware Wired/Wireless Gaming Mouse also has 7 fully-programmable buttons and customizable 16.8m AlienFX RGB lighting, providing a fully bespoke gaming experience.

The Signature Alienware ergonomic design offers a versatile grip that caters to any style and an expanded palm support for greater stability. The easy grip and full hand support means complete comfort for marathon gaming sessions.

The Alienware Difference

- 1,000Hz polling rate in both wired and wireless mode ensures maximum performance
- Powered by a rechargeable lithium ion battery for an industry leading battery life of up to 350 hours in one single charge
- Best-in-class custom Alienware native 16,000 DPI sensor for optimal accuracy & performance.
- Custom Adjustable scroll wheel allows users to choose between either 12 or 24 steps per scroll wheel revolution for precise control
- 7 fully programmable mouse buttons via Alienware Command Centre for greater personalization
- Customizable 16.8m AlienFX RGB Lighting
- Pre-loaded tension on main mouse buttons for a controlled, crisp, tactile click feel for increased responsiveness
- Alienware signature ergonomics caters to a majority of hand sizes & usage styles, and is designed to provide comfort for long hours of gameplay
- Available in Lunar Light & Dark Side of the Moon
