

DisplayPort 1.1 (M) to DVI-D (M) passive unidirectional cable, 1.8m (6ft)

An essential cable for office, home and classrooms.

K33023WW

Product Description

An essential cable for conference rooms and educational environments, the Kensington DisplayPort 1.1 (M) to DVI-D (M) Passive Cable transmits Full HD video from your computer to a monitor or projector. Ideal for connecting extended desktop or mirrored displays, or home video streaming and gaming displays. This high-quality cable is tested to perform with Kensington docks – and is backed by a Kensington Limited Lifetime Warranty. Quality cable construction includes shielded copper conductors, flexible outer jacket and thumb screws to provide consistent cable performance and reliable connectivity.

Features

- Supports video resolution up to Full HD. Also HDCP compatible for viewing protected content.
- Built using components that ensure consistent video transmission.
- Buy with confidence. Tested to work with Kensington docks.
- Accommodates desktop setups.
- Good for home, office or classroom.
- Works with DP++.
- Works with Kensington docking station deployments.
