Data Sheet
FUJITSU Desktop ESPRIMO D738

New small form factor PC in a more compact and space-saving design

The new FUJITSU ESPRIMO D738 Desktop PC provides advanced expandability features in a smaller housing. With up to 9th Gen Intel® Core™ processors, a switched monitor outlet and a power supply with 94% efficiency (optional) ensure best energy efficiency coupled with high performance. To meet the system upgrade requirements, it offers high flexibility with space for up to three mass storage drives. Optional Intel® Standard Manageability helps keep administration and rollout costs low. Optional security functions, such as the integrated cabinet lock, EraseDisk and SmartCard reader help secure your valuable business data and hardware components.

Ultimate usability
Benefit from a wide range of features which ease your workaday life
■ ON/OFF switch, I/Os in front for easy access control and use of the system (audio, USB Type C, optional SD card reader, SmartCard reader and ODD)

Quiet system
Pleasant working environment due to an extremely quiet system
■ Innovative hardware design with optimized cooling concept ensures silent operations

Always Available Office PC - stay connected and save power
Be ready for instant communication and a significantly reduced energy bill
■ Innovative Low Power Active Mode and energy-efficient integrated power supply

Advanced system management
Simple system administration for complex IT infrastructures
■ Intel® Standard manageability technology (ISM) optional and DeskView manageability suite

Low carbon footprint
Another example of Fujitsu's commitment to environmental protection and sustainability
■ Low power active function and energy-efficient power supply; less cables due to onboard LED/on/off switch, USB and audio connectors; less raw material used in printed circuit board (PCB) - reduction of up to 20% in PCB when compared to a 10 liter system
