

DR-Series LCD Monitor 22" | 17"

The DR-Series is specially designed for dental settings. Its image optimization capability allows dentists to get across patient diagnosis and treatment data more effectively, and its appealing white exterior and NeoV™ Optical Glass attests to the IEC/EN 60601-1-certified display's excellence in form as well as in function. Attractive, durable and versatile, it meets every need over the course of dental consultation and treatment.

Versatility and Adaptability

The DR-Series is adaptable to fit every conceivable dental environment. Besides being mounted on the VESA mounting stand, the display can be installed with a VESA stand, on the dentist's desk or mounted on a rotatable arm with handles for easy movement. Multiple connectivity options, including HDMI and DisplayPort, are provided for connecting to different types of devices and showing video content.

Enhanced Colour Reproduction and Image Clarity

Displays with exceptionally clear images help dentists communicate more effectively with patients. With cutting-edge gamma correction, black-level alignment adjustability, and high contrast ratio, the DR-Series can capture darker details and deliver premium images, thereby enhancing treatment quality.

Easy to Clean and Reliable Design

The anti-acid and anti-alkali coating treatment of NeoVTM Optical Glass ensures that the DR-Series withstand cleaning and disinfection. Bolstered by the metal casing and equipped with DC 24V medical-grade power supply, the DR-Series is durable, safe and reliable.

Features

- LED-backlit technology with 1920 x 1080 and 1280 x 1024 resolutions
- \bullet NeoV $^{\text{TM}}$ Optical Glass and metal housing for excellent cleanability and protection
- Crisp 20,000,000:1 dynamic contrast ratio
- \bullet EN60601-1 and IEC60601-1 medical certification
- Equipotential terminal connector
- White exterior design for easy contaminant detection
- \bullet DC 24V medical-grade power adapter allows a longer distance connection
- Illuminator mode for easy X-ray film viewing

- Image Enhancer: 3D Comb Filter / Deinterlace / Noise Reduction / Image Rotation / Freeze
- Front-sided IP22 Compliant (IEC 60529 Standard)
- EcoSmart Sensor automatically adjusts brightness level according to ambient lighting conditions
- Gamma selection and black-level adjustment
- Optional handle for easy movement of display
- VESA mounting for flexible installation in healthcare settings
