

Kensington® ClickSafe® 2.0 Portable Keyed Laptop Lock

K64830S

Product Description

Kensington, The Professionals' Choice™ for device security for over 25 years, produced the ClickSafe® 2.0 Portable Keyed Laptop Lock designed for nearly effortless mobile protection of computers and your most sensitive information for on the go professionals. The ClickSafe® Security Anchor installs quickly into the industry-standard Kensington Security Slot and provides high-level security that engages in one click without using the key. The self-coiling cable can stretch up to 6 feet, and shrinks down to only 3 inches for easy packing.

Features

- ClickSafe® Locking Technology provides one-step security after Security Anchor has been installed into Kensington Security Slot™ found on most laptops, increasing employee compliance
- 5mm Keying System is compatible across all of Kensington's latest locks and includes patented anti-pick Hidden Pin™ Technology
- T-Bar™ Locking Technology attaches to the Kensington Security Slot™ found on most laptops and other devices
- Self-coiling Steel Cable stretches up to 6 feet or shrinks down to 3 inches for easy packing and resists cutting attempts and anchors to desk, table or any fixed structure
- Pivot and Rotate cable provides superior laptop engagement
- Independently Verified and Tested for industry-leading standards in torque/pull, foreign implements, lock lifecycle, corrosion, key strength and other environmental conditions
- Register & Retrieve™ program allows you to order replacement keys
- Supervisor Keyed allows lock access only to authorized administrators
