## The ritual of brewing perfect filter coffee

Enjoy the ritual of brewing perfect filter coffee with the Philips Café Gourmet coffee maker. Its unique boil & brew technology maximizes every part of the brewing process, for hot and full-flavored coffee.

### Perfect taste and aroma

- Unique boil & brew system for hot and full-flavored coffee
- Aroma twister circulates the coffee for an optimal taste
- Maintain the hot coffee temperature after brewing
- Optimal brewing temperature for the richest flavor and aroma

### Easy to experience

- Dishwasher-safe parts for easy cleaning
- Cable storage compartment for easy placement in your kitchen
- Swing filter holder for easy filling of coffee
- Auto shut-off after 30 min. for energy saving and safety
- Drip stop to pour a cup of coffee whenever you like

# Highlights

## Boil & Brew

The boil & brew system first boils the water in the glass container before it flows through the ground coffee, resulting in hot and full-flavored coffee.

## Dishwasher-safe parts

The jug and filter holder can be easily cleaned in the dishwasher.

## Cable storage compartment

Spare cable can be stored very easily in the cable compartment in the back of the coffee maker. It enables placing the coffee maker nicely in your kitchen.

## Aroma twister

This smart nozzle inside the jug circulates the inflowing coffee evenly through the jug for an optimal and consistent aroma, from the first to the last cup.

## Keep your coffee hot

After brewing your coffee, the heating plate maintains the coffee temperature, for hot and tasty coffee.

## Swing filter holder

The filter holder is opened by swinging it to the side, which makes the filling of coffee easy. The filter holder is also detachable, for easy cleaning.

## Optimal brewing temp

Thanks to the brewing temperature of 93° C, precisely the right flavors and aromas are extracted from the coffee grounds, for a perfect taste.

## Automatic shut-off (30 min)

## Auto-off

30 Minutes after brewing your coffee, the coffeemaker switches off automatically for energy saving and safety. This is according to EU regulation, which is applicable for all coffee makers in the EU. If you want your coffee to stay hot longer, Philips offers coffee makers with a thermal jug.

## Drip stop

The drip stop allows you to pour a cup of coffee before the full brewing cycle is finished.

# Specifications

## Accessories

Included: Glass jug

## Design

Color: Black & Metal

## Finishing

Material of main body: Stainless steel & plastic

Material water tank: Glass

## Country of origin

Made in: Poland

## General specifications

Suitable for: Ground coffee powder

Ease of cleaning & maintenance: Dishwasher-safe parts, Removable filter holder

Ease of use and comfort: Translucent water tank, Water level indication, Drip stop, Automatic shut-off

Special functions: Boil & brew

Coffee drinks: Drip filter coffee

## Service

2-year guarantee

## Sustainability

Power consumption brewing: 1300 W

## Technical specifications

Capacity water tank: 1 L

Capacity water tank: Up to 12 cups

Cord length: 0.8 m

Frequency: 50 - 60 Hz

Voltage: 220 - 240 V

Water boilers: 0

Brewing time for a jug: 10 min

## Weight and dimensions

Dimensions of packaging (WxDxH): 240 x 240 x 569 mm

Dimensions of product (WxDxH): 195 x 225 x 510 mm

Weight of product: 2.3 kg
