ICY BOX IB-AC504 Mini DisplayPort to VGA Adapter

Old screen, new MacBook®?

When your old VGA screen or projector does not find the right interface on the computer or laptop, the IB-AC504 comes to the rescue. It adapts a Mini-DisplayPort (V1.2) and converts it to a VGA connection.

Mini-DisplayPort

The input is received via a Mini-DisplayPort interface. Mostly Macbook Air® are using this interface, developed by Apple. Every owner of an Apple device will know this interface.

VGA

VGA is the most common interface among older screens and projectors. If you travel a lot with a portable device in the business sector you will surely find this adapter necessary.
