ICY BOX **IB-174SSK-U**

2-bay Mobile Rack for 1x 2.5" and 1x 3.5" SATA/SAS HDDs with additional 2x USB Type-A Hub

Can do both

Fits into a 5.25" bay and offers space for one 2.5" and one 3.5" SATA HDD. Both HDDs have their own connection and work independently of each other. A data transfer rate of up to 6 Gbit/s can be achieved.

Safety is taken care of

Both hard disk slots can be locked. The trayless design and hotSwap make the exchange of HDDs faster and more convenient.

Rest

Depending on whether the HDDs are to be used or not, the two hard disks can be switched on or off at the same time without making any major changes to the hardware.
