

## Under-Desk CPU Mount for Computer Towers - Width and Height Adjustable, 180-Degree Swivel, Black

MODEL NUMBER: DCPUSWIV

Secures your PC case beneath your desktop, freeing up valuable desk and floor space and providing easy access to rear cables and ports.

### Features

**Under-Desk CPU Mount Designed to Save Valuable Space in Your Computer Workstation** Why keep your desktop computer on the floor, where it is vulnerable to dust, dirt, spills and other debris? For that matter, why keep it on your desktop, where it not only takes up valuable space, but is also pushed against the wall, making it difficult to access rear USB ports and cable connections? Tripp Lite's adjustable DCPUSWIV lets you securely mount your tower CPU beneath your desktop, saving space and keeping important ports and switches within easy reach.

**Ideal for Mounting at Home, School and the Office** This CPU mount bolts to the underside of your desk or table using the included mounting hardware. The adjustable metal frame fits most computer cases ranging from 4.8 to 10 inches (12.3 to 25.3 centimeters) wide and 14.1 to 21.9 inches (35.7 to 55.7 centimeters) high. In addition to PC cases, the frame also supports UPS systems, gaming towers and other essential workspace peripherals up to 66 pounds (30 kilograms). A locking knob holds the unit firmly in place.

**Convenient Open Frame Design and 180-Degree Swivel Allow Easy Access** A slide track allows you to pull the tower CPU out from beneath the desk as far as 18 inches for easy access. The open frame swivels 180 degrees, so you can easily attach cables and reach ports located in the rear of the unit. Made from durable steel, the frame features a scratch-resistant black powder-coated finish that blends with your décor and stands up to frequent handling. Included padding helps protect your CPU or UPS system from exterior damage.

## Specifications

OVERVIEW	
UPC Code	037332248879
Device Compatibility	Monitor/HDTV

### Highlights

- Mounts underneath your desk to leave valuable tabletop and floor space clear
- Adjusts to fit wide range of CPUs from 4.8 to 10 in. wide and 14.1 to 21.9 in. high
