

ClickSafe® Combination Laptop Lock for Nano Security Slot

The perfect combination of trusted security for your laptop's nano anchor slot.

K68103WW

Product Description

The ClickSafe® Combination Laptop Lock for Nano Security Slot delivers trusted combination lock security to laptops with Nano anchor slots. A master coded combination option makes combination and lock management simple. Features include ClickSafe® locking technology, a resettable 4-number dial, a cut-resistant cable, a pivoting and rotating head and a limited five-year warranty. From Kensington, inventor and worldwide leader in laptop security locks.

Features

- ClickSafe® locking technology allows the lock head to be attached with one hand in a single click.
- The 1.8m (6ft) carbon steel cable with plastic sheath resists tampering, offers peace-of-mind and delivers the same level of cut and theft resistance as thicker cables.
- A special pivot and rotate hinge on the cable allows flexible movement.
- Kensington locks are tested and verified. Each lock is precision engineered to meet or exceed rigorous industry standards for strength, physical endurance and mechanical resilience.
- A limited five-year warranty means you can rest assured knowing you're covered by Kensington, inventor and worldwide leader in laptop security locks.
