Sleep comfortably at every turn

The DreamWisp auto seal cushion, combined with the top-of-the-head tube design, gives you the freedom to sleep in any position, throughout the entire night.

Minimal parts

- A desired fit with minimal parts

Innovative design

- A modular design for more options

Comfort and ease of use

- The cushion with comfort and confidence

Highlights

Designed with minimal parts

DreamWisp's head gear is designed to perform with exceptional comfort. The four-point headgear is styled to provide stability with fewer parts, while the soft, lightweight frame doubles as the DreamWisp's airflow channel. That means fewer components that come in contact with you as you sleep, so that you can enjoy comfortable therapy — all night, every night.

The Wisp cushion

DreamWisp combines the performance of a nasal mask with a minimally invasive design, an exceptional seal, and the comfort of Wisp's cushion technology. Patients are more satisfied with how well the mask maintains a seal during use.

Freedom to choose

The modular design of the DreamWisp auto seal cushion allows users to choose the cushion that works best for them, all on one frame.

Specifications

Product details

Materials: Silicone

Materials: Polycarbonate

Warranty: 90 days

Calibration data

Hand wash with mild detergent: Rinse thoroughly, hang or air dry

Replacement

Inspect daily for wear: Replace at first sign of wear
