

PHILIPS

Mini Multigrain rice
cooker

Viva Collection

Deliver tasty rice&multigrain

Variety choice of cookings

Innovative premium design

HD3190/21

Enjoy the goodness of multigrain

With Hydro-penetration technology

With innovative Hydro-penetration technology, Philips Mini IH Multigrain rice cooker enables fast water penetration into the core of each grain to reach 62% of the golden water content, deliver a bouncy & glutinous cooking result

Deliver tasty rice & multigrain

- Darksteel Flame Pot
- Hydro-penetration technology
- iSpiral IH Heating Technology
- Multigrain steam valve

Innovative premium design

- Detachable 304 stainless steel inner lid
- Digital LED with sensor touch control
- Fully hidden intelligent user interface

Variety choice of cookings

- "My favorite" to define personal preference
- 16 tasty rice & multigrain cooking programs

Highlights

My favorite

Tailor-made personal preference with 3 most favorite cooking programs for convenient usage.

16 rice&multigrain programs

8 multigrain cooking programs plus delicious white rice options and various popular cooking functions.

Darksteel Flame Pot

Enabling even heat distribution throughout the pot and thermal stabilization to enhance heating performance and taste; With silver ion and nano-level antibacterial ceramic inner coating, food-level safety is guaranteed.

Detachable 304 inner lid

Easy-removable detachable inner lid is designed for easy clean, with 304 stainless steel to prevent rust.

Digital LED & sensor control

Hi-tech digital LED display and smooth sensor touch control for easy operation.

Fully hidden intelligent user

Fully hidden interface when rice cooker is not in operation to save power and intelligent response to cooking program selections.

Hydro-penetration technology

Hydro-penetration technology mimics nature to provide an optimum hydrophilic condition for grains to accelerate the skin split. This enables fast water penetration into the core to reach 62% of the golden water content.

iSpiral IH Heating Technology

Philips patented iSpiral IH heating technology precisely controls heat and temperature to form ultra-strong outside-in currents that enable each grain well cooked with even heat on all sides.

Multigrain steam valve

The unique puzzle design effectively controls steaming and retains original aroma of grains.

Specifications

Accessories

Included: Measuring cup, Non-stick innerpot, Scoop, Steaming tray/basket

Country of origin

Made in China

General specifications

Product features: Digital touchscreen, Preset cooking function, Time control

Keep warm function: 12 hour(s)

Prefix programs: 16 menus

Type of lid: Fixed

Cancel button

Cord length: 0.8 m

Power-on light

Service

2-year worldwide guarantee

Sustainability

Packaging: > 90% recycled materials

Stand-by power consumption: <1 W

User manual: 100% recycled paper

Technical specifications

Capacity bowl: 2 L

Frequency: 50 Hz

Power: 950 W

Heating elements: Aluminium coil

Weight of product: 3.6 kg

Weight of product in pack: 4.5 kg

Weight and dimensions

Dimensions of packaging (LxWxH):

338X300X262 mm mm

Dimensions of product (LxWxH):

288X247X195 mm mm
