

19" Modular KVM Terminal PRO with 19" LCD, UK layout

No.: 21623

1U high keyboard (UK layout), touchpad and 19" LCD screen for your 19" server cabinet

Description

The LINDY Modular KVM LCD Terminal is a great space saver, featuring a high-quality 19" Active Matrix TFT LCD display, notebook style UK keyboard with separate numeric keypad, and touchpad all in just 1U! The complete drawer can be slid in and out of a 19" rack, while the LCD can be slid out separately from the keyboard drawer and flipped up in front of the rack. This allows the cabinet door to be closed and locked leaving the display to remain visible. The modular design of this terminal allows you to add support for multiple servers, simply purchase an [/shop/showProductDetail.do?orderNumber=395308](#) Port U8C KVM Switch or 16 Port U16C KVM Switch and complete a simple installation. The LCD Terminal also has a fully featured OSD (On Screen Display), allowing the easy set up and management of the console, and supports resolutions up to 1280 x 1024.

- Space-saving 1U design
- 19" TFT LCD monitor supporting resolutions of up to 1280 x 1024
- UK keyboard, numeric keypad and touchpad
- PS/2 and USB compatible
- Can be used in conjunction with our modular 8 Port U8C KVM Switch or 16 Port U16C KVM Switch to control multiple servers
- Includes a 3-in-1 KVM cable for connecting to a server or KVM switch
- TFT display can be viewed while the keyboard remains hidden

Technical details
